## Justification for need of the Project:

The backwardness of Indian Muslims was first highlighted by Sacchar Committee report 2006. While Muslims constitute 14% of the Indian population, they only comprise 2.5% of the Indian bureaucracy. It was concluded that the conditions faced by Indian Muslims was even below that of Scheduled Castes and Scheduled Tribes.

A systematic- state sponsored upliftment of the Muslim community is the need of the hour, especially in the economically weaker sections of the society to curb the wealth disparity.
